

Jafrin parveen

Program to reverse the elements of the list without using reverse function

```
num=[0,1,2,3,4,5,6,7,8]
```

```
L=len[num]
```

```
for i in range(int(L/2)):
```

```
    n=num[i]
```

```
    num[i]=num[L-i-1]
```

```
    num[L-i-1]=n
```

```
print(num)
```
